Dear Mr. Casey:

Federally Employed Women, Inc. (FEW) is holding its sixteenth National Training Program (NTP) in Detroit, Michigan, July 17 - 20, 1985. I would like to tell you something about our organization and the NTP and ask you to support the NTP by actively encouraging your employees to participate in this training program.

FEW is a non-profit membership organization representing the interests of over 900,000 women in the Federal government. FEW is dedicated to eliminating sex discrimination and increasing job opportunities and advancement for women in the Federal service. The NTP is designed to further FEW's goals by providing training opportunities for Federal employees in the areas of career and personal development, personnel and equal employment procedures, and legislative issues. Federal workers gain valuable knowledge from these training sessions and the Federal government, in turn, benefits from the added skills of its employees.

In past years, FEW has received excellent cooperation from all departments and agencies of the Federal government. Providing employees with additional training enhances their skills and makes them more productive to the Federal government. This increased productivity makes for a more effective organization. I am looking forward to continued cooperation this year.

Again, I'm asking you to give the NTP your active support. I hope to see many of your employees at the NTP.

Sincerely,

Marie G. Argana
